## MISSION IMPROBABLE

Bedlam Island is under attack. Decimal Dave, the boss of a rogue band of estate agents, wants to evict the Bedlam Bunch and plant calculator bushes in their magical land unless they can find enough gold by tomorrow morning.

When Silly Billy discovers an ancient treasure map, he and Pirate Peggy set off to save the day. Unfortunately, they can't read, have no sense of direction and have forgotten the controls for the flying carpet. They might need the kids' help to get through this!!!

- ✓ Dedicated stage manager / audience crowd-rouser

# Why The Bedlam Bunch?

**Kids, theatre, connection and fun are everything to us.**

The Bedlam Bunch has been creating interactive children's entertainment since 2007, with a repertoire of shows all based on the wildly comical fantasy island of Bedlam.

As professional actors, we breathe life into these much loved characters with performances designed to give children the excitement of diving into a whole new world, where they determine where the story leads.

The audience becomes part of the adventure: Children solve problems, direct the characters, answer difficult questions and help keep our loveable fools out of peril. Our stage manager also takes part from within the audience as a crowd-rouser, helping children and teachers join in and keeping the whole room engaged

"Hired Bedlam Bunch for our School end of year Summer Celebration. I couldn't have been happier with what I saw, the children loved it! Hula Talula beamed throughout with energy that never seemed to have an end. Thank you for making the end of a very long year something to remember."
